BULLETIN.

Indianapolis, Ind., Oct. 28, 2 a. m. -(P)-Mayor John L. Duvall of Indianapolis resigned his office at noon yesterday (Thursday), according to an announcement early this morning by Ira M. Holmes, prominent attorney, who declared that he now is the mayor.

Holmes declared that Duvall asked for the resignation of his wife, Mrs. Maud E. Duvall, as city controller, appointed Holmes in her place, and then resigned. Holmes said that he, as city controller, succeeded to the mayoralty as provided by law. Duvall mailed his resignation to the city clerk, Holmes

The council's action followed the announcement yesterday by Treasurer Edward A. Ramsey that he had been advised that Duvall was holding office illegally and that he would refuse to honor city salary warrants. The next pay roil, amounting to more than \$300,000, is due Tuesday.

Additional ruptures in the city administration also occurred today. Duvall broke with Claude Worley, chief of police, it was understood on sood authority, and demanded that he resign. Duvall also is said to have accused Fred Connell, president of the board of affety, and Frank Cones, president of the board of affety, and Frank Cones, president of the board of affety, and Frank Cones, president of the board of affety, and Frank Cones, president of the board of the board of works, with siding in with the council and asked them to resign.

Demands Their Resignations.

Worley, Connell and Cones refused to quit, it was stated, each telling Duvall has served nearly half of his four year term.

#### INVITATION TO THOMPSON STIRS

VP ROW IN BRONX

New York, Oct. 27.—[Special.]—
Prouble is browing in the Bronz over
an invitation tendered to William Hale
Phompson, Chicago's book burning
mayor, to be the chief speaker at the
Bronz Chamber of Commerce on

News that the mayor was going to abandon his fight against the allegedly Anglo-tainted schoolbooks long enough to be dined by the business leaders of the Bronx was made public yesterday following the receipt of a telegram from him accepting the invitation. Albert E. Davis, architect, one of the founders and a former president of the chamber, immediately got busy. He sent a letter to Logan Billings.

#### The Tea Hour In Satin or Velvet

The simple charm of femininity is captured in the soft drapings of these hats. Often just velvet is used, again satin and velvet with a touch of metal. Trimmings are of rhinestone or feathers. Brown and black predominate.

Moderate Price Hat Section

#### Debonair Youth In Scalloped Velvet

They are close and very snug fitof colorings, so very smart with the more sombre ensembles of fall, and the large fur collars. A chic metal pin is trim-ming.

The Industrial Hygiene bulletin carries some special advice to women who work in laundries. They say the health hazards to laundry workers arise out of four conditions. They must stand for many hours at a stratch.

a stretch.

The floors on which they stand are frequently waterproof, and therefore they are apt to be nonelastic and cold. They must be exposed to air that is both hot and moist.

There is a slight danger of infection due to handling soiled clothing.

In order to lessen the harm which-might come from long hours of stand-ing, the following suggestions are made: 1. The shoes worn while at work should

A storm of criticism ensued on the ground that such power would make the council dictatorial.

A corrupt council controlled by a traction magnate, it was pointed out, might some time issue a ninety-nine year franchise, saddling the streets with a mode of transportation that might become obsolete in half that period. Proponents of the no limit plan replied that bankers will not finance a short time franchise, and that if the city had the right to issue a fifty or sixty year grant its leverage would be greater on the local companies which want a terminable permit.

Fred Harvey meal service on the Santa Fe is a distinctive feature of a distinctive railway-unequalled in American railroading. It has an international reputation.

Experienced travelers know this is true. Ask any of these veterans of the steel highway and their answer is apt to be-best in the world.

This really remarkable service was conceived with high ideals. What is the most that can be given the patron for his dollar, always has been and still is the big idea and big ideal. Only the best is good enough for the Santa Fe and Fred Harvey.

In unique dining stations, 125 miles or so apart, Santa Fe-Fred Harvey have endeavored to capture the charm of southwest history and romance. Yet these dining stations are but a moment's walk from Santa Fe rails.

On the Santa Fe you do not eat in an eating house; you dine at a dining station. There is a difference-the Fred Harvey "difference."

Also perfect Fred Harvey dining car service on certain trains.

Five Santa Fe trains leave Chicago and Kansas City every day for California. "Santa Fe all the way." Besides The Chief there are The California Limited, The Navajo, The Scout and The Missionary-all offering famous Fred Harvey meal service.

Senator Mason Expected to Testify Today.

Maj. Percy Owen, former profilition director for Illineis, went on the witness stand in his own defense in United States Judge Walter C. Lindley's court yesterday, denying all knowledge of the collection of graft money in accramental wine permits. State Senator Lowell B. Mason, codefendant with Owen on the government charges of bribery and extortion, is expected to follow him today, and the case may go to the jury by evening.

The government has presented test the granting of wine permits. Through one witness only has any of this money been traced to Owen. That witness is Harry R. Schlau, bathhouse proprietor, who testified he gave Owen half of what he collected in two months in 1924, \$13,500.

Owen Tells About Schlau.

Leaning forward and talking to the fury expressive and volubly, Owen told of his relations with Schlau. Schlau took him automobile riding and visited his effices many times. Owen said, but never talked of wine permits. In fact, the permit for whisky and alcohol for Schlau's bathhouse and sanitarium was denied in Washington at his request, Owen and he told of a sistement that Schlau had signed in the office of his lawyer, Judge Michael Fuinberg, in which Schlau said there had never been any financial transactions between him and Owen.

#### New Hat Felts, Descat's "Zebra," Reboux's "Water Wave" and "Breitschwanz"

Dashing, chic and very evidently the latest Parisian interpretation of the first mode, these three new felts have just been unpacked. The hats sketched from left to right above, are developed in Rose Descat's "Zebra," Rebour "Water Wave" and Reboux's "Breit-

schwanz," each one both smart and interesting. They may be had in hats which are ready to wear, or will be custom tailored on the head. In several smart shades, including black.

#### New Imported Chiffon Lisle Hose With Open Work Clocks, \$2.25

Following the dictates of fashionable Europe comes this newest open clock hosiery fashioned of an effective chiffon lisle. Chie and sheer looking, it is extremely practical for town or country sports and for street wear, and has a fancy picot edge setting off the double

protective welt. This lovely new hose is greatly in demand this fall, and may be had in four popular shades, camel, sand, nude and ecstasy. It is moderately priced at \$2.25.

## Readjusts its Rates

Becauseofavariety of conditions that we have not sought'

and which we cannot avoid, Yellow Cab is obliged to make a slight change in its rates which, effective as rapid as meters can be changed. will read:

25 cents for the first fifth of a mile. 10 cents for each additional two-fifths of a mile.

This readjustment gives a slight

decrease for many short hauls, because hereafter we will start at 25 cents for the first fifth of a mile. The charge for the first mile will remain as it has been. After the first mile, the charge advances to between 6 and 7 per cent per average load.

The conditions which have made

the rate change necessary and logical, are: the greater conges-tion of the streets which have necessarily decreased the number of miles travelled in a given time as well as the number of hauls, the adoption of the State gasoline tax of 2 cents per gallon, and the mounting costs of other materials which is general throughout the

In the case of the longer haul where

the rate is changed slightly upwards, we are confident that the public pocketbook will not notice it. Yet, slight as it is, it is sufficient in the aggregate to preserve a reasonable and legitimate profit for the Yellow Cab Company—to enable it to maintain the service for which it has become nationally famous, and to insure the continued employment of men of character to drive its cabs

The last change madein Yellow Cab's

rates was a decrease. It occured September 21, 1924, when we abolished the extra fares for extra passengers so that "five could ride for the price of one." That rate remains unchanged.

A letter from Mr. William Randolph Hearst, President of Hearst Publications, Incorporated, is summarized as follows:

Business and Property: Hearst Publications, Incorporated, owns all outstanding capital stocks, except directors' qualifying shares, of the subsidiary companies publishing the fol-lowing well established newspapers:

The San Francisco Examiner . . . (Est. 1880) San Francisco Call & Post . . (Est. 1856-74) The Los Angeles Examiner .... (Est. 1903)
The Los Angeles Herald ..... (Est. 1911)
Oakland Post-Enquirer ..... (Est. 1886)

These newspapers are among the foremost in their respective territories and each represents an important unit in the nation-widechain of Hearst publications. Their present combined net paid daily circulation averages

Purpose: The proceeds from these Bonds will be used: to retire \$7,400,000 principal amount of First Mortgage and Collateral Trust 61/2% Serial Gold Bonds, being the amount now outstanding of the Briginal issue of \$12,000,000, dated May 1, 1924; to acquire the entire capital stock of Post-Intelligencer Company, publishing the Seattle Post-Intelligencer; towards liquidating the floating debt of the subsidiaries, and towards the acquisition by them of necessary plant and mechanical equipment, including plants to satisfactorily house the San Francisco Examiner and the Oakland Post-Inquirer, now estimated to cost approximately \$2,250,000; or for other corporate purposes.

Security: These Bonds, in the opinion of counsel, will be (1) a direct obligation of Hearst Publications, Incorporated; (2) the joint and several obligation of its subsidiary companies and (3) will be secured by a first mortgage lien and (3) will be secured by a first mortgage lien on real estate, buildings, equipment and other fixed assets now owned or hereafter acquired. (4) They will be additionally secured by pledge under a collateral deposit agreement of all the stocks, exclusive of directors' qualifying shares, of subsidiary companies, and (5) by the uncon-ditional guarantee of William Randolph Hearst as to the due and punctual payment of both principal and interest.

Assets: Consolidated balance sheet of the Hearst Publications, Incorporated and subsidiaries, including the Post-Intelligencer Company, as of September 11, 1927, prepared by independent auditors, giving effect to increased capitalization, recent appraisals and the present financing, shows current assets of \$9,130,987, and current liabilities of \$2,029,244. Including assets (value of Associated Press franchises and circulation), in addition to physical and current, which are of basic value to successful newspapers, a conservative valuation of the property and business to be owned by the Hearst Publications, Incorporated and its subsidiaries is in excess of \$60,000,000. The conservative value of the physical property owned is about \$11,000,000, of which amount over \$7,850,000 represents real estate and buildings located in established business districts in Los Angeles, San Francisco and Oakland.

Earnings: Consolidated earnings of the Company and its present subsidiaries as prepared by independent auditors and those of Post-Intelligencer Company as officially reported were as follows:

1927 (Jan. 1 to Sept. 11) \$20,641,532 \$3,608,312 29,270,861 5,277,229 26,748,645 4,566,667 In excess of the corresponding period of 1916 and it is expe ings for the full year 1927 will exceed those for 1916.

Average annual revenues for the three periods above indicated amounted to \$28,437,-213, and the average net income after depreciation, all taxes and interest paid other than bond interest amounted to \$4,990,062. Annual interest requirement on the total funded debt will be \$1,250,000.

Management: The present management will continue to operate the Company's affairs.

## INTIMATE KNOWLEDGE OF INDUSTRY

The growth of the First National Bank of Chicago has paralleled the development of the city and the great territory of which it is the commercial center.

The Bank began business in the days of the old stage coach, first helping to build with Chicago in the trying days of the Civil War. In the reconstruction period following the great fire of 1871 the Bank assisted in refinancing the devastated city. It participated in inaugurating the World's Fair in 1893, when the name of Chicago became international and the city started upon a new era of progress.

All these years the First National Bank has served and contributed to the growth of commerce and industry, gaining an intimate knowledge of all lines of business which, for more than twenty years past, have been allocated under the divisional organization of the Bank to six divisions.

Here one finds bankers who have specialized in conditions, trends and credits in the lines of business under their supervision, affording to customers a service based upon personal contact, supplemented by all the resources of a great financial institution.

The following information is summarised from a letter to us from Mr. R. H. Scott, President and General Manager of Reo Motor Car Company:

#### HISTORY AND BUSINESS

Reo Motor Car Company, incorporated under the laws of Michigan in August, 1904, and one of the pioneers in the motor industry, has had a successful history of twenty-three years under the same management. During this period it has never failed to make a profit in any year.

The Company is engaged in the manufacture and sale of Reo Motor cars and trucks, comprising three distinct lines, two in the passenger car

Estimated net earnings of \$3,500,000 for the six months ended August 31, 1927, were larger than those for any similar period in the Company's history, reflecting the popular reception of the Company's new passenger models, as well as the new truck models. This is particularly significant in view of the general trend toward lower earnings among independent producers for the same period.

Net earnings of \$438,752 for the six months

ended February 28, 1927, reflect the interruption in production due to the introduction of new models and the complete charge-off of all devel-opment and advertising expenses connected therewith.

The total of units shipped by the Company for the first nine months of the calendar year 1927, was 37,532, exceeding all previous records, and it is expected that shipments for the entire calendar year of 1927 will reach 45,000 units.

The Company's low capitalization, the consistent absence of Preferred Stock and Bonds, together with sustained strong earnings have permitted it to share profits generously with its stockholders. The Company's dividend rate has never fallen below 10% of the par value of the outstanding Common Stock in any fiscal year (except in 1911 when dividends were omitted),

and in 1908 was as high as 80% of the par value.

In addition to paying cash dividends each year throughout its entire history, with the exception of 1911, the Company has also paid liberal stock dividends as earnings have warranted.

The Common Stock is now on a regular dividend basis of 80 cents per share per annum, extra dividends being declared as conditions warrant.

We offer this Stock when, as, and if received by us and subject to the approval of counsel. Delivery in the form of permanent certificates is expected to be made on or about November 9, 1927.

If Keeping "That Schoolgirl Complexion" Is Your Aim By NORMA SHEARER

Skin is denied you, or that costly beauty treatments are required to keep one. That has been disproved.

Beauty experts of this country and Europe advocate a rule so simple, so economical, that millions have adopted it. As a result you see that schoolgirl complexion wherever you look today.

The modern rule for beauty is a simple one: a proved complexion sody and water to keep the skin and pores clean; "make-up," powder and rouge thoroughly cleared from the skin every night before bed.

Wash the face gently with Palmolive. Massage its balmy olive

Massage its balmy olive

and palm oil lather into the skin. Rinse with warm water; then with cold. If your skin is inclined to be naturally dry, apply a little cold cream. That is all—it's nature's rule for keeping that schoolgirl complexion. Do that regularly, and particularly at night. Note how much better on your skin in even one week.

GET REAL PALMOLIVE

Costs but 10c a cake. Use no other on your face. But be sure you get and palm oils, are not the same as Palmolive. REMEMBER that and TAKE CARE. The Palmolive-Peet Co., Chicago, U. S. A (Advertisements)
